Fred Adams'

## **Health Care Reform Survival Kit for Insurance Agents**

Dear Friend,

Have you been wondering what health care reform is going to do to your insurance business? In case you haven't noticed, Obamacare just pulled the rug out from under our whole way of doing business.

Hi, my name is Fred Adams and I'm proud to say I've devoted my entire insurance career over the past twelve years to educating and providing my clients with money saving, tax reducing, freedom enhancing Health Savings Accounts coupled with High Deductible Health Plans.

Unfortunately, this past March our beloved United States Congress in all its wisdom and glory enacted legislation designed (theoretically) to "take from the rich and give to the poor" in the health care arena by castrating health insurance agencies in favor of publicly created and run "exchanges".

Bottom line is, commissions will be cut by over two thirds.

I don't know about you, but all of a sudden, health insurance may be fun, but it sure is no longer looking like a very profitable part of my business. So what to do?

The truth is, my whole company, HSA for America, which enjoyed phenomenal success by specializing in Health Savings Accounts has done the lion's share of its business selling health insurance.

Not any more...

Now if you're like me, you realize the time is now, if not yesterday to take swift action in order to stay in business. Ignore all this at your own peril.

So I invite you to join me in advancing to the next level as we launch our business into the second decade of the 21<sup>st</sup> Century.

Take advantage of all the trial and error, research and implementation I've done over the years that is at the core of our agency's success and that is enabling us to meet the challenges we face today.

Plus, you'll get an inside peek at what we're doing at the HSA for America group of companies to not only weather the storm, but take our business to the next level.

Here's just a brief snapshot of what we've included in this, what I believe is truly an exceptional treasure chest of strategies and tactics you can put to work each and every day to beat the commission cuts and take *your* business to the next level:

- How to replace lost commissions with *the* key products that will explode your income
- What to do NOW to create your own "competition free" zone
- Where your next HUGE wave of business is going to come from
- Plus...
- Three 35 page "Money Magnet" special reports you can clone and adapt for your clients to build your credibility and stimulate many more referrals
- Three CD's worth of myself and Wiley Long, my partner at HSA for America, revealing how we have built our agency to where it is today

With just one or two new sales, this product will have easily paid for itself and I can guarantee that if you will earnestly implement just one strategy a week for the next four weeks, you'll never look back.

In fact, you'll probably wish you had discovered some of what I'll be sharing with you, long ago.

So, go ahead and get your copy today.

Your future income is ready and waiting for you. All you need to do is take action – Do it now.

Sincerely,

Fred Adams

National Sales Manager for the HSA for America Group of Companies

P.S. Remember, this package has a ton of information. It includes a detailed manual that will become your income reference for the rest of your life. **PLUS** you'll receive three full length CD's ensuring you get the mindset of a Super Agent in your head. The best part is you'll hear not only the stories, but the inflections, phraseology and thinking of two of the world's most successful agents. Be prepared for an amazing journey to wealth – and avoid the looming health reform commission disaster!
